## Presentation to Women's Health Advisory Committee

### Proposed Healthy Texas Women and Family Planning Benefits

---

Lesley French  
Associate Commissioner, Women's Health Services  
Health and Human Services Commission

Travis Duke  
Director, Office of Women's Health  
Health and Human Services Commission

October 28, 2015

# Presentation Overview

---

Background and Purpose

Overview of Proposed Programs

Proposed Benefits

- Methodology
- Healthy Texas Women Benefits
- Family Planning Program Benefits

Future Goals and Next Steps

# Background and Purpose

---

- 84<sup>th</sup> Legislature directed HHSC and DSHS to combine EPHC with TWHP and expand Family Planning benefits.
- Legislature provided general guidance on the scope of the new and expanded programs.
- Women's Health Advisory Committee will recommend proposed benefits for the HHS Executive Commissioner's approval.

# Scope of Proposed Services

---

## Methodology

- Review of current services provided through TWHP, EPHC, FP, Breast and Cervical Cancer Services Program, and Title V Prenatal Program.
- EPHC and FP utilization review
- Review of national guidelines for contraceptive, family planning, and breast cancer and cervical cancer recommended services.
- Review of recommendations of the United States Preventive Services Task Force.

# Scope of Proposed Services

---

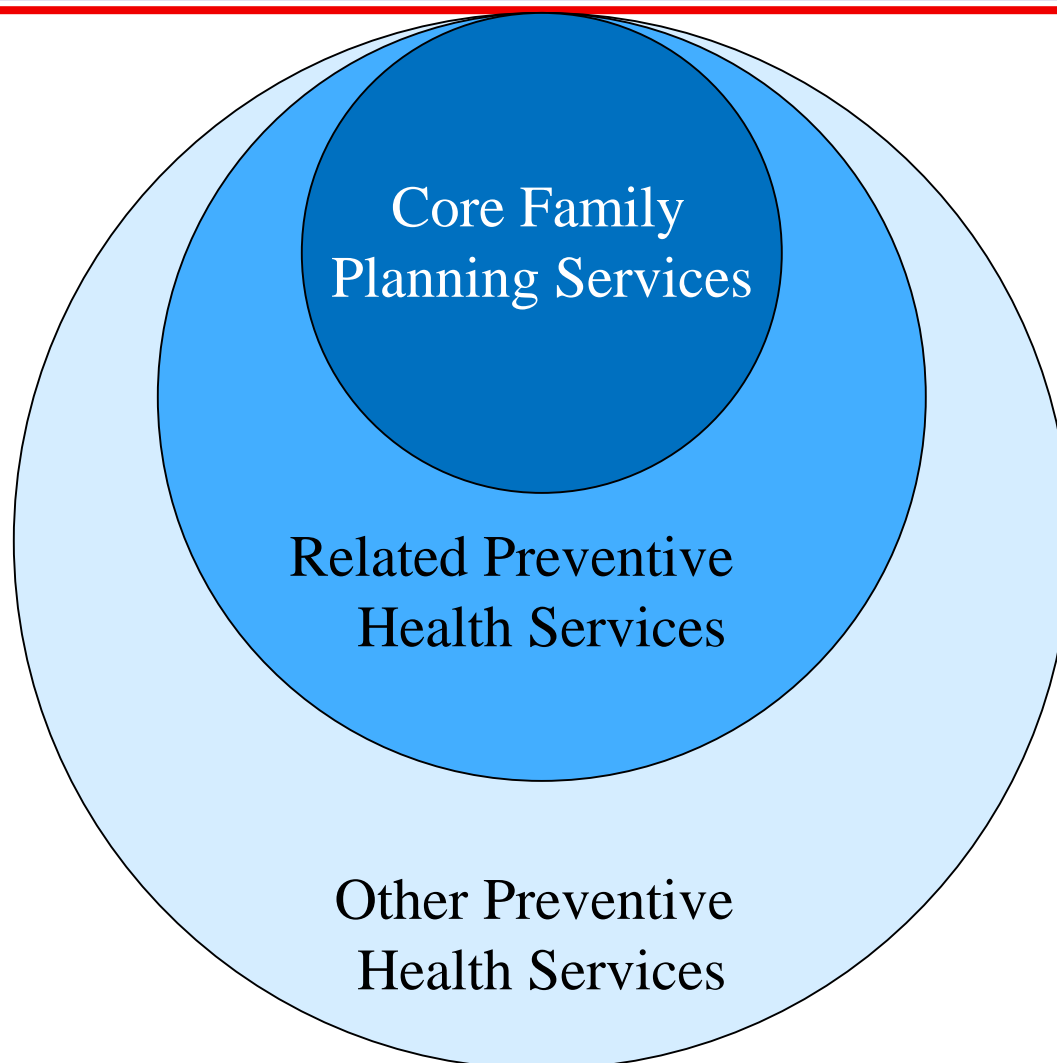

## Methodology

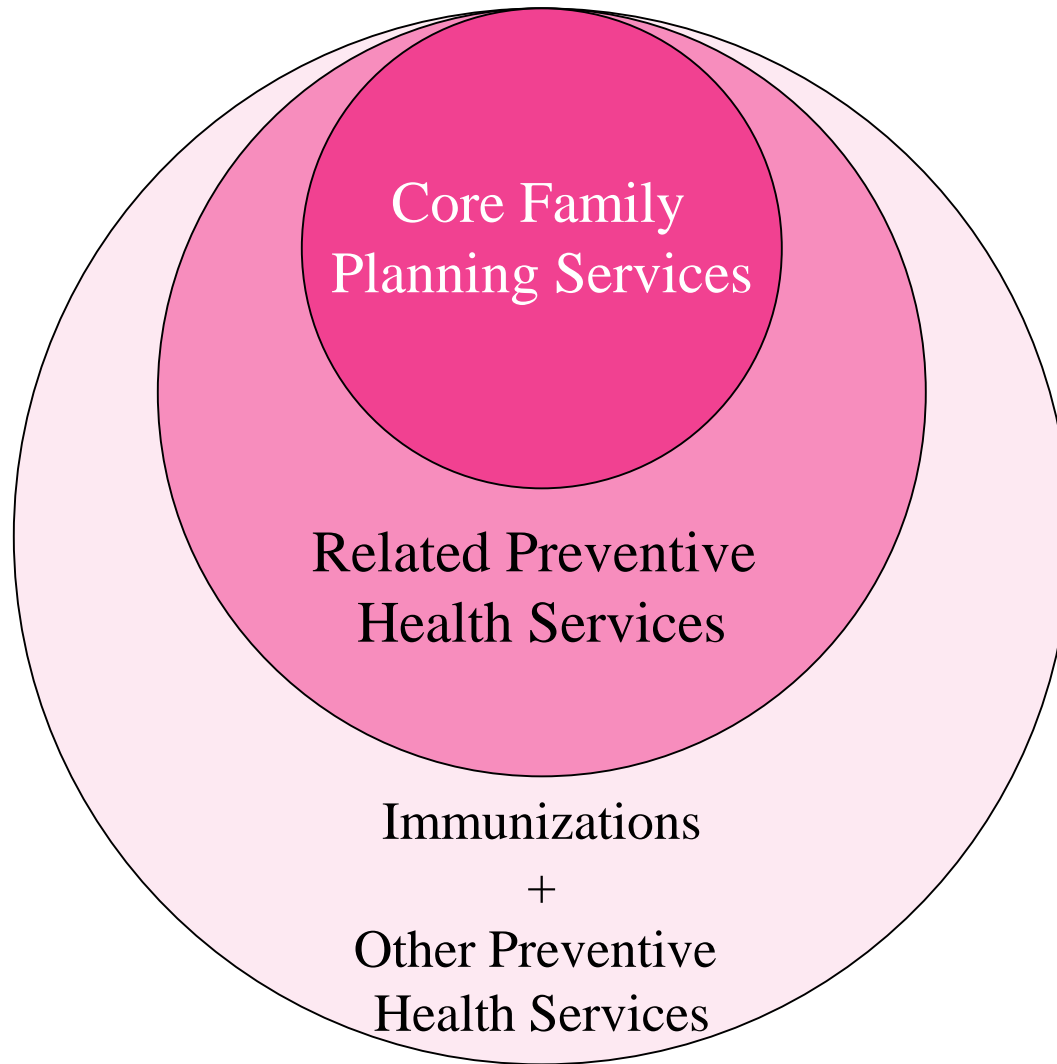

- Using the framework presented in *Providing Quality Family Planning Services*, services were divided into categories representing core family planning services, related preventive health services, and other preventive health services.

L. Gavin, S. Moskosky, K. Curtis, et al. Providing Quality Family Planning Services: Recommendations of CDC and the U.S. Office of Population Affairs. MMWR 2014;63(No. RR-4):1-54.

# CDC/OPA Framework

---

# HTW Service Categories

---

## Core Family Planning Services

- Contraceptive services (pregnancy prevention and birth spacing)
  - IUDs, implants, oral contraceptive pills, three-month injections (medroxyprogesterone), sterilizations, etc.
- Pregnancy testing and counseling
- Health screenings
  - Pap tests
  - Screening for hypertension, diabetes, and elevated cholesterol
- Preconception health (e.g., screening for obesity, smoking, and mental health)
- Sexually transmitted infection (STI) services
  - Chlamydia & gonorrhea screening & treatment
  - HIV screening

# HTW Service Categories

---

## Related Preventive Health Services

- Beneficial to reproductive health
- Closely linked to family planning services
- Appropriate in context of family planning visit but do not contribute directly to achieving/preventing pregnancy
- Examples include:
  - Breast cancer screening
  - Cervical cancer screening and treatment
  - Problem-focused gynecological services
    - Cancer screening of other reproductive organs such as vagina or uterine lining
    - Repair of abnormalities of reproductive system

# HTW Service Categories

---

## Immunizations

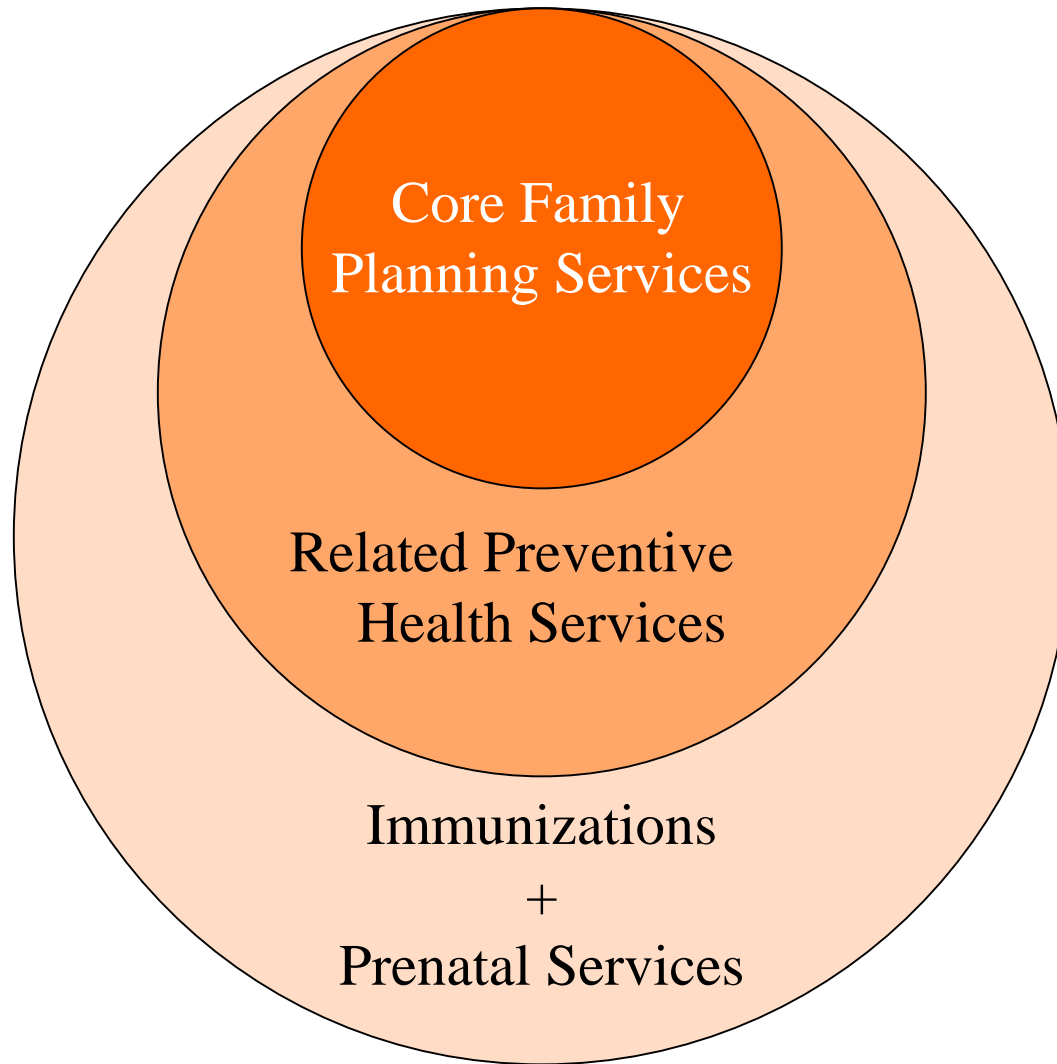

- Vaccines and immunizations for women and men to protect individuals and the public from vaccine preventable illnesses.

## Other Preventive Services

- Includes preventive health services for women not included in *related preventive health services* that positively affect maternal health and future pregnancies.
- Important in primary care context

# Family Planning Program

---

# FP Service Categories

---

## Core Family Planning Services

- Contraceptive services (pregnancy prevention and birth spacing)
  - IUDs, implants, oral contraceptive pills, three-month injections (medroxyprogesterone), sterilizations, etc.
- Pregnancy testing and counseling
- Health screenings
  - Pap tests
  - Screening for hypertension, diabetes, and elevated cholesterol
- Preconception health (e.g., screening for obesity, smoking, and mental health)
- Sexually transmitted infection (STI) services
  - Chlamydia & gonorrhea screening & treatment
  - HIV screening

# FP Service Categories

---

## Related Preventive Health Services

- Beneficial to reproductive health
- Closely linked to family planning services
- Appropriate in context of family planning visit but do not contribute directly to achieving/preventing pregnancy
- Examples include:
  - Breast cancer screening
  - Cervical cancer screening and treatment
  - Problem-focused gynecological services
    - Cancer screening of other reproductive organs such as vagina or uterine lining
    - Repair of abnormalities of reproductive system

# FP Service Categories

---

## **Immunizations**

- Vaccines and immunizations for women and men to protect individuals and the public from vaccine preventable illnesses.

## **Prenatal Services**

- The proposed prenatal services are based on clinical guidelines of the American Congress of Obstetricians and Gynecologists (ACOG) and include services that are currently reimbursed by Title V and services that have been reimbursed by the Expanded Primary Health Care Program.
